

# Survey on Open Science & Citizen Science for eLexicography

Melanie Seltmann, Amelie Dorn, Sylvana  
Kroop, Maria Schrammel, Eveline Wandl-Vogt,  
Fermin Serrano Sanz

5th EnEL action meeting Barcelona

01/04/2016

# outline

- 1) idea
- 2) process
- 3) survey
- 4) Citizen Science & eLexicography & discussion

# idea

- reviewing of status quo of citizen science
- learning from experience with citizen science
- adaption of best practices

# process

- pilot study in april
- study until july
- study report in august → next enel meeting

# survey

- divided into two parts: experienced and unexperienced participants
- project-related questions
- fields of citizen science (funding, collection, validation, scientific work)
- tools

# survey

## **experienced:**

- own citizen science experience in the project (experience, fears)
- new aspects for the project by integrating citizen science
- summary (follow-up, recommendations, cautions)

# survey

## **unexperienced:**

- own visions of citizen science
- profits of citizen science

# Citizen Science & eLexicography & discussion

*What is the added value of Citizen Science to eLexicography?*

*Which Citizen Science projects in eLexicography do you know or can you imagine?*
