Ireland

# ENeL Training School – 2016

## objectifs

participants will learn

- ✓ about tools and methods that are used to create innovative e-dictionaries.
- ✓ how to collect and analyse (corpus) data for a chosen language, automatically extract data using one of the available extraction procedures or applications, and how to edit and publish extracted data in one of the available (online) dictionary writing systems and/or publishing platforms.

The programme includes both theoretical courses and hands-on sessions.

## **ENeL Training School – 2016 ENeL**

### **topics**

- ✓ Introduction (presentation of different successful innovative e-dictionaries projects)
- ✓ Corpus building (Corpus Query Systems, Web as Corpus)
- ✓ Data modelling, automatic extraction procedures
- ✓ Online publication and web design (Dictionary Writing Systems, online publication)

## ENeL Training School – 2016 ENeL

participants

30 students

✓ 14 countries

✓ 16 F

✓ 14 M

✓ Budget : ≈ 19000
